Westside Road Community School?

The **Westside Road Community School Advocacy Committee (WRCSAC)** was initiated in March 2011 with the aim of working together with the community to gather data and support in order to project the need for and advocate for the construction of a local community school on Westside Road. Our committee members act as representatives on behalf of the families in the communities along Westside Road.

THE FIRST STEP:

The first step in this process is to gather accurate community data that will show the need for a community school in this area. As a starting point we are hoping to include data from neighbourhoods between, and including, Parker Cove and Secret Point. The more efficiently we can gather this data, the sooner we can proceed to the next step—petitioning School District 23 and the provincial government.

**Yes!—Our family is in support of a public community school on Westside Road.
PLEASE ADD OUR FAMILY INFORMATION TO THE
Westside Road Community School Advocacy Committee (WRCSAC) Database**

The information requested below will be used strictly to build the case for a Westside Road Community School with the Department of Education and School Division 23. We will need to show that there are sufficient numbers of children, now and in the future, on the North Westside to justify the expense of building and maintaining a school. Information from the current Canadian census will not be available for at least 18 months, which is not timely enough to allow the appropriate entities to make their decisions and include funding in the five year budgetary plan. All information gathered will be protected. If you have questions or concerns regarding privacy, please contact the WRCSAC Chairperson. Thank you for taking the time to support this cause in your community!
